

XPSMF1DI1601

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Schneider Electric |
| Catalog number | xpsmf1di1601 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|---------------------|--------|
| Voltage | 24 V |
| Signal Level | 24 V |
| Product Type | Module |
| Signal Type | 24 |

Description

The XPSMF1DI1601 module from SCHNEIDER ELECTRIC is an advanced solution designed for industrial applications. It operates at a voltage of 24V, making it ideal for integration into automation systems. The module supports signal levels of 24, ensuring high precision and reliability in monitoring and controlling processes. Its design allows for easy installation and integration with other system components.
