

3108A-403-4-00

Industrial automation components

Manufacturer	Sew-Eurodrive
Catalog number	3108a-403-4-00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	3.74 kgs
Voltage	400 V
Current	3108 A
Frequency	50 - 60 Hz
Product Type	Inverter
Signal Type	400
Signal Level	400 V
Relay Specifications	400 VAC

Description

The Sew-Eurodrive 3108A-403-4-00 is a MOVITRAC frequency inverter designed for precise control of three-phase AC motors in industrial applications. This inverter operates with a 400 V AC input voltage and provides an output frequency range of 0 to 45 Hz, suitable for various automation systems. Key features include integrated protection against overloads and short circuits, ensuring reliable operation. Its compact design allows for easy integration into existing systems, making it ideal for applications such as pumps, fans, conveyors, and material handling systems. The inverter's robust construction and advanced technology enhance motor efficiency and extend service life, contributing to overall system performance and energy savings.
