

DFE32B

Industrial automation components

Manufacturer	Sew-Eurodrive
Catalog number	dfe32b
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.11 kgs
Interface Type	fieldbus
Industrial Safety	plc
Product Type	Module
Safety Level	plc

Description

The Sew-Eurodrive DFE32B is a PROFINET I/O module designed to integrate seamlessly with SEW-Eurodrive's MOVIDRIVE® MDX61B and MOVITRAC® B inverters, facilitating efficient communication within industrial automation systems. This module enables real-time control and monitoring, enhancing system performance and flexibility. It supports the PROFINET IO protocol, ensuring reliable data exchange between devices. The DFE32B features a modular design for easy installation and maintenance, and its compatibility with various SEW-Eurodrive inverters allows for versatile system integration. Key features include high-frequency pulse width modulation technology for improved communication efficiency, a high-performance communication interface, and wide compatibility with SEW-Eurodrive's MOVIDRIVE® MDX61B and MOVITRAC® B inverters. The module's dimensions are 25.0 cm in length, 12.0 cm in width, and 3.0 cm in height, with a weight of 1.0 kg. Please note that the DFE32B has been discontinued by the manufacturer.
