### Technical specification

No technical specifications available.

### Description

The MC LTE-B0004-2B1-1-00 inverter from SEW EURODRIVE is an advanced device operating within a voltage range of 200 to 240 V. It offers a current of 2.3 A and a power output of 0.37 kW, making it an ideal solution for applications requiring efficient energy management. The device supports frequencies from 50 to 60 Hz, ensuring stable operation. The cooling efficiency also stands at 0.37 kW, highlighting its capability to function in demanding conditions. The signal type and signal level are both 240, ensuring high signal quality. The relay specification is also 240.
