

### MDX61B0110-5A3-4-00

Industrial automation components

<b>Manufacturer</b>	Sew-Eurodrive
<b>Catalog number</b>	mdx61b0110-5a3-4-00
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	7.16 kgs
<b>Supply Voltage</b>	380-500 V AC
<b>Output Power</b>	11 kW
<b>Output Current</b>	24 A
<b>Dimensions</b>	135 x 315 x 285 mm
<b>Weight</b>	6.6 kg

### Description

The Sew-Eurodrive MDX61B0110-5A3-4-00 is a high-performance MOVIDRIVE B series inverter designed for industrial automation applications. This drive inverter offers a rated output power of 11 kW and operates efficiently within a supply voltage range of 380 to 500 V AC. It is engineered to handle a rated output current of 24 A, making it suitable for demanding applications requiring reliable and precise motor control. The device measures 135 x 315 x 285 mm and weighs approximately 6.6 kg, facilitating easy integration into various industrial setups. The MDX61B0110-5A3-4-00 is part of the MOVIDRIVE B family, known for its versatility and robust performance in controlling three-phase motors. Its design includes features that support four-quadrant operation, allowing for dynamic braking and regenerative capabilities, which are essential for applications involving frequent direction changes or precise speed control. This inverter is ideal for use in machinery and processes where precise motor control and energy efficiency are paramount.
