

### MPB51A011-503-00

Industrial automation components

<b>Manufacturer</b>	Sew-Eurodrive
<b>Catalog number</b>	mpb51a011-503-00
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	2.30 kgs
<b>Voltage Range</b>	380-500 VAC
<b>Power Output</b>	11 kW
<b>Current</b>	16 A
<b>Product Type</b>	Servo Drive
<b>Series</b>	MOVIDYN

### Description

The Sew-Eurodrive MPB51A011-503-00 is a high-performance servo drive from the MOVIDYN series, designed to provide precise motion control in industrial automation applications. Operating within a voltage range of 380 to 500 VAC, it delivers a power output of 11 kW and a current of 16 A, making it suitable for demanding tasks requiring robust and reliable performance. This servo drive is engineered to integrate seamlessly with various automation systems, offering flexibility and adaptability to diverse operational requirements. Its compact design ensures efficient space utilization, while its durable construction guarantees longevity and consistent operation in challenging industrial environments. The MPB51A011-503-00 is an ideal choice for applications where precision, reliability, and efficiency are paramount.
