| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-------------------------------|--------------------------|
| Product Type | MOVIFIT Motor Starter |
| Network Compatibility | PROFINET Classic |
| Dimensions | 140 mm x 320 mm x 228 mm |
| Weight | 4.00 kg |
| Product Type | MOVIFIT Motor Starter |
| Communication Protocol | PROFINET Classic |
| Housing Type | Electronic Box |

Description

The SEW-Eurodrive MTS11A015-503-E20A-00 is a MOVIFIT motor starter designed for industrial automation applications. This device offers seamless integration with PROFINET Classic networks, facilitating efficient communication and control within automated systems. It is engineered to provide reliable motor protection and control, ensuring optimal performance and longevity of connected motors. The motor starter is housed in a compact enclosure measuring 140 mm in height, 320 mm in length, and 228 mm in width, with a weight of 4.00 kg, making it suitable for various industrial environments where space and weight considerations are critical. Its robust design and advanced features make it an ideal choice for enhancing the reliability and efficiency of industrial automation processes.
