| <b>Power Output</b>                | 50 kW                       |
| <b>Input Voltage Range</b>         | 380-500 VAC                 |
| <b>Cooling Capacity</b>            | 50 kW                       |
| <b>Operating Temperature Range</b> | 0 to +45 degrees Celsius °C |
| <b>Protection Rating</b>           | IP10 IP                     |
| <b>Weight</b>                      | 10.3 kg                     |

### Description

The Sew-Eurodrive MXP80A-050-503-00 is a MOVIAXIS power supply module designed for industrial automation applications. This module provides a reliable power source for MOVIAXIS servo drives, ensuring optimal performance and efficiency in motion control systems. Key features include a 50 kW power output, a wide input voltage range of 380-500 VAC, and a cooling capacity of 50 kW. The module operates within a temperature range of 0 to +45 degrees Celsius and has an IP10 protection rating, suitable for various industrial environments. With a weight of 10.3 kg, it offers a compact solution for power supply needs in automation systems.
