

## FGSE1200-21

Industrial automation components

<b>Manufacturer</b>	Sick
<b>Catalog number</b>	fgsel200-21
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Brand</b>	Sick
<b>Part Number</b>	FGSE1200-21
<b>Product Type</b>	Safety Light Curtain
<b>Protective Height</b>	1232 mm
<b>Resolution</b>	30 mm
<b>Operating Voltage</b>	24 V DC

### Description

The Sick FGSE1200-21 is a safety light curtain designed to provide reliable protection in industrial environments. Manufactured by Sick, a leading provider of industrial automation components, this model offers a protective height of 1232 mm, ensuring comprehensive coverage for personnel and machinery. Operating at a resolution of 30 mm, it delivers precise detection capabilities, enhancing safety measures. The device operates on a 24V DC power supply, making it suitable for integration into various automation systems. As part of Sick's FGS series, the FGSE1200-21 exemplifies the company's commitment to quality and safety in industrial automation applications.
