

ISD230-4111

Industrial automation components

Manufacturer	Sick
Catalog number	isd230-4111
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Signal Level	24 V
Component Specifications	isd230
Signal Type	24

Description

The ISD230-4111 is a component designed for operation at 24V, suitable for signal systems. Its specifications include a signal type and signal level, both also at 24. This product is characterized by high reliability and precision, making it an ideal solution for industrial applications.
