

MSC800-0000

Industrial automation components

Manufacturer	Sick
Catalog number	msc800-0000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Interface Type	ethernet
Voltage	24 V
Component Specifications	msc800
Product Type	Sensor
Signal Type	24
Signal Level	24 V

Description

The MSC800-0000 sensor from SICK is an advanced device designed for precise monitoring and detection. It operates at a voltage of 24V, ensuring stability and reliability in various industrial applications. Equipped with an ethernet interface, it allows for easy integration with automation systems. The signal type is 24, guaranteeing high-quality data transmission. The MSC800 component specification highlights its versatility and suitability for demanding environments.
