Manufacturer	Siemens
Catalog number	1204-mfg
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Power Supply	24 VDC
Current	2.0 A
Processor	1.66 GHz dual-core
Memory	40GB SSD GB
USB Ports	2 x USB 2.0 ports

Description

The Siemens 1204 MFG is a high-performance in-station process monitor designed for real-time monitoring and quality control in manufacturing environments. Manufactured by Sciemetric Instruments, this device is part of the sigPOD 1204 series, known for its robust performance and versatility.

The 1204 MFG model features a 24 VDC power supply and operates at 2.0 A, ensuring reliable operation in demanding industrial settings. It is equipped with a 40GB solid-state drive and a 1.66 GHz dual-core processor, providing efficient data processing capabilities.

The device includes two USB 2.0 ports for connectivity and supports Windows® 10 IoT operating system, facilitating seamless integration into existing manufacturing systems. The sigPOD 1204 MFG is suitable for various applications, including assembly-press monitoring, leak testing, vibration analysis, and functional testing, offering manufacturers a comprehensive solution for process monitoring and quality assurance.
