Manufacturer	Siemens
Catalog number	1p-s30805-g5412-x
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Communication Server
Product Family	HiPath 4000
Application Area	Enterprise DECT Telephony, Large Building Wireless Coverage, Campus Wireless Voice Deployments
Compatibility	Siemens HiPath 3800, Siemens HiPath 4000
Slot Count	10 slots

Description

The Siemens 1P S30805-G5412-X is a communication server designed for integration within Siemens' HiPath 4000 IP Distributed Architecture (IPDA). This server functions as a central control unit for the HiPath AP 3700 IP access point, facilitating the extension of telephony services to remote sites over an IP network.

It provides a 19-inch, nine-slot peripheral shelf that accommodates various control and peripheral modules, thereby enhancing the scalability and flexibility of the HiPath 4000 system. The 1P S30805-G5412-X is suitable for enterprise DECT telephony, large building wireless coverage, and campus wireless voice deployments.

Its compatibility with Siemens HiPath AP 3700 base stations and HiPath PBX systems ensures seamless integration within existing Siemens communication infrastructures.
