Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	2L2A-03400-20
Product Type	Frequency Converter
Series	DYNAVERT
Application Area	Industrial Automation

Description

The Siemens 2L2A-03400-20 is a frequency converter designed for industrial automation applications, particularly in controlling the speed and torque of electric motors. This device is part of Siemens' DYNAVERT series, known for their efficiency and reliability in various industrial settings.

The 2L2A-03400-20 model offers a power output suitable for medium to large-scale operations, ensuring precise motor control and energy savings. Its robust construction and advanced features make it ideal for applications requiring consistent performance and durability.
