Description

The Siemens 3KD5230-0RE10-0 is a 3-pole switch disconnector rated for 1250 A, designed for Size 5 applications. It features a front operating mechanism positioned on the left side and comes as a basic unit without a handle, equipped with flat terminals.

This device is part of Siemens' SENTRON series, known for providing reliable electrical isolation and protection in low-voltage circuits. The switch disconnector is suitable for various industrial applications where safe and efficient electrical isolation is required.

Its robust design ensures durability and consistent performance under demanding conditions.
