| **Product Family** | Siguard |

## Description

The Siemens Siguard Laser Scanner 3RG7830-0JB20 is an advanced safety device designed to protect personnel working near hazardous machinery. Part of the SIGUARD series, this laser scanner utilizes opto-electronic technology to create a protective field, ensuring immediate response to any intrusion.

It offers a detection range of up to 15 meters for non-safety-relevant objects and up to 4 meters for safety-relevant protective fields, effectively safeguarding operators from potential hazards. The device is engineered for versatility, suitable for applications such as driverless transport systems and stationary machinery, providing reliable protection in diverse industrial environments.
