Manufacturer	Siemens
Catalog number	3tf5744-0cm7
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Control Supply Voltage	200-240 V AC
Auxiliary Contacts	4 NO + 4 NC contacts
Main Contact Rating	630 A at AC-3
Operation Power	355 kW at 400 V
Product Series	SIRIUS 3TF6 series

Description

The Siemens 3TF5744-0CM7 is a vacuum contactor designed for efficient motor control in industrial applications. This 3-pole contactor is rated for a control supply voltage of 200-240 V AC at 50/60 Hz, making it suitable for various industrial environments.

It features 4 normally open (NO) and 4 normally closed (NC) auxiliary contacts, providing flexibility in control circuits. The main contacts are rated for 630 A at AC-3 operation, with a rated operation power of 355 kW at 400 V.

The contactor is part of Siemens' SIRIUS 3TF6 series, known for their reliability and performance in motor control applications. This model is discontinued by the manufacturer but remains a valuable component for existing systems requiring maintenance or replacement.
