### Description

The Siemens 3VL9300-3HF00 is an accessory designed for the VL160X, VL160, and VL250 series molded case circuit breakers. This rotary drive extension facilitates the operation of circuit breakers through extended fitting doors or covers, enhancing accessibility and safety in industrial settings. Key features include compatibility with multiple VL series models, a robust design suitable for demanding environments, and ease of installation. This accessory is ideal for applications requiring enhanced operational reach and safety measures in electrical distribution systems.
