## Description

The Siemens 6AG4104-1AA01-1BX0 is a high-performance industrial PC from the SIMATIC IPC547C series, designed for demanding automation tasks. This rack-mounted PC features a 19-inch width and 4U height, providing a compact yet powerful solution for industrial environments.

It is equipped with a Core 2 Duo E8400 processor, operating at 3.0 GHz with a 1333 MHz front-side bus and 6 MB L2 cache, ensuring efficient processing capabilities. The system includes a 250 GB SATA hard drive for reliable storage and 1 GB of DDR2 SDRAM for smooth multitasking.

Connectivity options are extensive, featuring two Gigabit LAN ports (RJ45), two serial ports, one parallel port, six USB ports on the back, two USB ports on the front, two PS/2 ports, and audio interfaces, facilitating seamless integration into various industrial networks.

The system operates on Windows XP Professional MUI (English, German, French, Italian, Spanish) with Service Pack 3, offering a familiar and stable platform for industrial applications. Designed for durability, the 6AG4104-1AA01-1BX0 includes features such as temperature and fan control watchdogs and a board retainer, ensuring reliable operation in demanding environments.

Its 19-inch rack-mountable design allows for flexible installation in standard industrial racks, optimizing space utilization.
