Manufacturer	Siemens
Catalog number	6ar1025-0ab00-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel 80386EX
Flash Memory	2 MB
SRAM	2 MB
I/O Interfaces	Analog and Digital
Communication Protocol	PROFIBUS-DP

Description

The Siemens 6AR1025-0AB00-0AA0 is a compact industrial computer from the SICOMP IMC series, designed for demanding automation applications. Equipped with an Intel 80386EX processor, it offers robust processing capabilities for industrial environments.

The system includes 2 MB of flash memory and 2 MB of SRAM, ensuring reliable data storage and quick access. It features both analog and digital I/O interfaces, facilitating seamless integration with various industrial equipment.

Additionally, the computer supports PROFIBUS-DP communication, enabling efficient data exchange within automation networks. This model is ideal for applications requiring compact computing solutions with versatile connectivity options.
