

6AV2124-0UC02-0AX0

Industrial automation components

Manufacturer	Siemens
Catalog number	6av2124-0uc02-0ax0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	2.93 kgs
Interface Type	profibus
Signal Type	24
Voltage	24 V
Component Specifications	tp1900
Signal Level	24 V

Description

The Siemens 6AV2124-0UC02-0AX0 is a SIMATIC HMI TP1900 Comfort Panel designed for industrial automation applications. This 19-inch widescreen TFT display offers a resolution of 1366 x 768 pixels, providing clear and detailed visuals for process monitoring and control. Equipped with a touch interface, it facilitates intuitive operation and interaction. The panel operates on a 24 V DC supply voltage and features a PROFINET interface, along with MPI/PROFIBUS DP interfaces, ensuring versatile connectivity within automation systems. It includes 24 MB of configuration memory and runs on Windows CE 6.0, configurable with WinCC Comfort V11 SP2 and higher. The device is housed in an aluminum front panel with dimensions of 483 x 337 mm and a depth of 75 mm, offering durability and a sleek design. With an operating temperature range of 0°C to 50°C, it is suitable for various industrial environments. The panel is rated IP65 at the front and IP20 at the rear, providing protection against dust and water ingress. Please note that this product has been discontinued since July 1, 2022, and is available as a spare part.
