

6AV2128-3MB36-0AX0

Industrial automation components

Manufacturer	Siemens
Catalog number	6av21283mb360ax0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

No technical specifications available.

Description

SIMATIC HMI MTP1200 Panel operatora - SIMATIC HMI MTP1200, Unified Comfort Panel, neutral, touch operation, 12.1" widescreen TFT display, 16 million colors, PROFINET interface, configurable from WinCC Unified Comfort V16, contains open-source software, which is provided free of charge See enclosed Blu-Ray The SIMATIC HMI Unified Comfort Panels enable innovative operating concepts based on the new SIMATIC WinCC Unified visualization software. All devices offer the same number of interfaces as as well as maximum operating comfort thanks to modern multi-touch technology, in sizes from 7 to 22 inches. The new hardware also offers significantly more performance for implementing visualization. The system limits were doubled at minimum and even tripled in some cases. This enables implementing even larger applications than to date on a panel system. The functionality of the device can easily be extended by the integrated Edge functionality as required. In order to guarantee the IT security of the devices, Siemens relies on a proprietary operating system and allows the user to deactivate functions or interfaces which are not required. Every Unified Comfort Panel is available in two design variants. Standard design: Siemens and SIMATIC HMI branding with a silver aluminum frame. Neutral design: Without branding and with a black aluminum frame
