

6AV3515-1MA20-1AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6av3515-1ma20-1aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.20 kgs
Fire Rating	c1
Interface Type	rs422
Component Specifications	rs422
Display Configuration	4-line display (20 characters per line) or 8-line display (40 characters per line)
Integrated Interfaces	2 x TTY/V.24 ports, 1 x RS422/485 port
User Memory	256 KB
Softkeys	8
Discontinuation Status	Discontinued; for new applications, Siemens recommends OP17

Description

The Siemens 6AV3515-1MA20-1AA0 is an Operator Panel (OP15/C1) designed for industrial applications requiring reliable human-machine interface (HMI) solutions. This panel features a versatile display configuration, offering either a 4-line display with 20 characters per line or an 8-line display with 40 characters per line, ensuring clear and concise information presentation. It is equipped with multiple integrated interfaces, including two TTY/V.24 ports and one RS422/485 port, facilitating seamless communication within industrial environments. The panel boasts a user memory of 256 KB and includes eight softkeys, enhancing operational efficiency. Despite its discontinuation, the 6AV3515-1MA20-1AA0 remains repairable, providing a cost-effective solution for extending its usability in existing installations. For new applications, Siemens recommends the OP17 model as a suitable replacement.
