### Description

The Siemens 6AV3627-1LK00-1AX0 is an Operator Panel from the OP27 series, featuring a 5.7-inch STN color LC display with a resolution of 240 x 320 pixels. Designed for industrial automation applications, this panel offers a user-friendly interface for machine control and monitoring. It includes 24 function keys, 18 of which are equipped with LEDs, and supports both numeric and alphabetical input. The panel operates on a 24 V DC supply voltage with a current consumption of 0.3 A. Manufactured in Germany, the OP27 series reflects Siemens' commitment to quality and durability in industrial settings. Please note that production and official support for this model ceased on October 1, 2014. However, the device remains repairable, offering a cost-effective solution for extending the usability of existing equipment.
