

6AV6640-0CA11-0AX1

Industrial automation components

Manufacturer	Siemens
Catalog number	6av6640-0ca11-0ax1
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.36 kgs
Memory/Storage	256 KB
Interface Type	rs485
Voltage	24 V
Component Specifications	tp177
Signal Type	24
Signal Level	24 V

Description

The Siemens 6AV6640-0CA11-0AX1 is a SIMATIC Touch Panel TP 177micro designed for integration with the SIMATIC S7-200 system. It features a 5.7-inch blue mode STN display with a resolution of 320 x 240 pixels, providing clear and intuitive operator interaction. Configurable using WinCC flexible 2004 Micro HSP, the device offers flexibility in application. It includes open-source software provided free of charge, accessible via the enclosed CD. The touch panel operates on a 24 V DC supply voltage and has a current consumption of 0.24 A, with an active power input of approximately 6 W. The ARM processor and 256 KB of flash memory ensure efficient performance. The device measures 212 x 156 x 45 mm and weighs 0.75 kg, making it suitable for various industrial environments. Please note that this product has been discontinued as of October 1, 2023, and is no longer in active production. For assistance, please contact your local Siemens office.
