Description

The Siemens 6AV66766MB304AX0 is a software license for the SIMATIC Modbus/TCP Communication Processor (CP) Red, designed for S7-400 H systems. This single license, provided on a CD, enables seamless integration of Modbus/TCP protocol into Siemens S7-400 H controllers, facilitating communication with Modbus-compatible devices over Industrial Ethernet networks.

The software is compatible with Windows XP and Windows 7 operating systems. It supports both Modbus server and client communication modes, allowing for versatile data exchange. The maximum user data per job is 250 bytes, ensuring efficient data handling.

The license is suitable for configuring redundant systems, enhancing the reliability of H systems. This product is ideal for applications requiring robust and flexible communication solutions in industrial automation environments.
