Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel Core i7-610E
RAM	4 GB DDR3
Storage	250 GB SATA HDD
Display Size	15 inches
Interfaces	PROFIBUS, MPI

Description

The Siemens 6AV7468-2FA20-0BK1 is a high-performance industrial panel PC from the SIMATIC IPC627C series, designed for demanding automation applications. This model features a robust 15-inch touchscreen display, powered by an Intel Core i7-610E processor, ensuring efficient processing capabilities.

It comes equipped with 4 GB of DDR3 RAM and a 250 GB SATA hard drive, providing ample memory and storage for complex tasks. The system operates without an optical drive, offering flexibility in media management.

Notably, it includes PROFIBUS and MPI interfaces, facilitating seamless integration into existing automation networks. This panel PC is engineered to withstand industrial environments, offering durability and reliability for continuous operation.
