Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Screen Size	15 inches
Resolution	1024x768 pixels
Frequency Range	30-97 kHz
Panel Type	Color TFT with protective glass
Certification	UL1950/IP20

Description

The Siemens 6AV8100-1CA00-0AA0 is a 15-inch LCD monitor designed for industrial applications, particularly within the SIMATIC HMI (Human-Machine Interface) family. This monitor features a color TFT panel with protective glass, ensuring durability in demanding environments.

It offers an optional resolution of 1024x768 pixels and operates within a frequency range of 30-97 kHz, providing clear and reliable visual output for industrial control systems. The monitor is UL1950/IP20 certified, indicating compliance with safety standards suitable for industrial settings.

Notably, it does not include a power supply, allowing for flexible integration into existing systems. This model is ideal for applications requiring robust and high-quality visual interfaces in industrial automation settings.
