Manufacturer	Siemens
Catalog number	6av8100-2cb00-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Screen Size	18 inches
Touch Interface	Resistive touch
Mounting Type	Flush-mount
Resolution	1280x1024 pixels
Frequency Range	30-97 kHz
Power Supply	230V AC V
Connection Cable Length	1.8 meters

Description

The Siemens 6AV8100-2BB00-0AA0 is an industrial-grade 18-inch LCD monitor designed for reliable performance in demanding production environments. This model features a resistive touch interface, enabling precise operation even while wearing gloves.

Its flush-mount design ensures seamless integration into control panels and machinery. The color TFT panel delivers a high viewing angle and a sharp resolution of 1280x1024 pixels, supporting frequencies from 30 to 97 kHz with built-in scaling DSP for flexible display options.

The on-screen controls allow for straightforward configuration, while the robust construction meets UL1950 and IP54 standards, offering protection against dust and splashes. The unit operates on 230V AC and includes a 1.8-meter connection cable for convenient installation.

The Siemens 6AV8100-2BB00-0AA0 is engineered for durability and long-term reliability in industrial automation applications.
