Ask about this product

Manufacturer	Siemens
Catalog number	6es5183-3ua12-6es5955-3lc14
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6ES5183-3UA12 + 6ES5955-3LC14
Product Type	Expansion Unit with Power Supply
Input Voltage	115/230V AC V
Output Voltage	5V DC V
Output Current	18A
Number of Slots	21 slots
Fan Included	Yes
Compatible Controllers	SIMATIC S5 135U, 183U, 185U

Description

The Siemens 6ES5183-3UA12 and 6ES5955-3LC14 are integral components of the SIMATIC S5 automation system, designed to enhance the performance and reliability of industrial control applications. The 6ES5183-3UA12 serves as an expansion unit, providing 21 additional slots for modules, and includes a built-in power supply capable of handling input voltages of 115/230V AC and delivering 5V DC at 18A.

This configuration ensures a stable power supply for the connected modules. The 6ES5955-3LC14 functions as a power supply unit, supplying 5V DC at 18A to the system. It is compatible with various SIMATIC S5 controllers, including the 135U, 183U, and 185U models, and operates with input voltages of 115/230V AC.

Together, these components offer a robust solution for expanding and powering SIMATIC S5 systems, ensuring efficient and reliable operation in demanding industrial environments.
