

## 6ES5421-8MA11

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6es5421-8ma11
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Legacy / discontinued

### Technical specification

<b>Weight</b>	0.05 kgs
<b>Product Type</b>	Digital Input Module
<b>Series</b>	SIMATIC S5
<b>Number of Input Channels</b>	8 channels
<b>Input Type</b>	Non-floating
<b>Supply Voltage</b>	24 V DC
<b>Dimensions</b>	135 x 100 x 45 mm
<b>Weight</b>	0.20 kg

### Description

The Siemens 6ES5421-8MA11 is a digital input module from the SIMATIC S5 series, designed for industrial automation systems. This module features eight non-floating digital input channels, each operating at 24 V DC, suitable for various applications requiring precise digital control. It is compatible with S5-90U, S5-95U, and S5-100U PLCs, as well as ET 100U and ET 200U systems. The module has been discontinued and is no longer available for purchase. For existing infrastructures, repair services are available to extend its usability. For instance, UNIS Group offers repair services for this model, allowing continued operation without the need for immediate upgrades to newer systems. Extending the lifespan of this module through repairs supports sustainability and cost-efficiency.
