Description

The Siemens 6ES7193-6BP20-0BA0 is a Base Unit from the SIMATIC ET 200SP series, designed for modular and scalable automation systems. This unit features push-in terminals for easy wiring and includes 10 auxiliary (AUX) terminals, facilitating flexible expansion and integration. With a compact design measuring 15 mm in width and 141 mm in height, it is suitable for applications where space is limited. The unit operates at a rated voltage of 24 V DC and is capable of handling up to 10 A on both the P1 and P2 buses, as well as on the AUX bus, ensuring reliable power distribution. Its robust construction and versatile design make it ideal for various industrial automation tasks, providing a reliable foundation for building customized automation solutions.
