Processor	Pentium III 500 MHz
RAM	64 MB SDRAM
Hard Disk Drive	20 GB EIDE
Floppy Disk Drive	1.44 MB 3.5-inch
Graphics	2 MB AGP

Description

The Siemens 6ES7647-2EE00-0DX1 is a SIMATIC BOX PC 620, designed for industrial automation applications requiring robust computing solutions. This model features an onboard AGP graphics card with 2 MB memory, providing reliable visual performance.

It includes a 20 GB EIDE hard disk drive and a 3.5-inch 1.44 MB floppy disk drive, offering ample storage and data transfer options. The system is equipped with 64 MB of SDRAM, ensuring efficient multitasking capabilities.

Connectivity options include 10/100 Mbit/s Ethernet RJ45, USB ports, and expansion slots with one PCI and one ISA/PCI slot, facilitating versatile integration into various industrial networks. The PC operates on a 110/230 V industry power pack with NAMUR, suitable for diverse power environments.

It comes pre-installed with Windows NT 4.0 Workstation (German, SP 5), providing a stable operating system for industrial applications. This model is discontinued, and support may be limited.
