Manufacturer	Siemens
Catalog number	6es7647-7ba10-0ax0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Celeron M 1.2 GHz
Memory	512 MB DDR3 1066 SODIMM
Storage	320 GB HDD SATA
Operating System	Without Operating System
Weight	3.25 kg

Description

The Siemens 6ES7 647-7BA10-0AX0 is a SIMATIC IPC 427C Microbox Industrial Computer designed for demanding industrial applications. Powered by a Celeron M 1.2 GHz processor with an 800 MHz front-side bus and 1 MB SLC, it ensures reliable performance in compact environments.

The system comes equipped with 512 MB DDR3 1066 SODIMM memory, providing efficient multitasking capabilities. Storage is managed via a 320 GB HDD SATA, offering ample space for industrial data storage needs.

Notably, this model operates without a pre-installed operating system, allowing for customized software configurations tailored to specific operational requirements. Its robust design and versatile features make it an ideal choice for industrial automation tasks requiring a compact yet powerful computing solution.
