Ask about this product

Manufacturer	Siemens
Catalog number	6ew1160-5de
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	230 V AC
Output Voltage	5.1 V DC
Output Current	2.5 A
Dimensions	88 x 88 x 88 cm
Weight	19 kg

Description

The Siemens 6EW1160-5DE is a robust power supply unit designed for industrial automation applications. Manufactured by Siemens, a leader in automation technology, this model ensures reliable and efficient power delivery for various industrial systems.

Key features include a compact design suitable for integration into control panels, high efficiency to minimize energy consumption, and compliance with international safety standards to ensure operational safety.

The 6EW1160-5DE is ideal for powering Siemens automation components, offering seamless compatibility and dependable performance. Its durable construction and advanced protection mechanisms make it a preferred choice for demanding industrial environments.
