Ask about this product

Manufacturer	Siemens
Catalog number	6ew1890-5ba
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	93-264 V AC
Output Voltage	5 V DC
Output Current	8 A
Frequency	50-60 Hz
Dimensions	1950 x 1000 x 300 mm

Description

The Siemens 6EW1890-5BA is a high-performance power supply unit designed for industrial automation applications. Manufactured by Siemens, a leading provider of automation solutions, this model ensures reliable and efficient power delivery for various industrial systems.

Key features include a wide input voltage range, robust output capabilities, and compliance with international safety standards. Its compact design allows for easy integration into existing setups, making it suitable for both new installations and system upgrades.

The 6EW1890-5BA is engineered to meet the demanding requirements of industrial environments, offering durability and consistent performance.
