

## 6FC5210-0DA20-2AA0

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6fc5210-0da20-2aa0
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	1.36 kgs
<b>Component Specifications</b>	mmcl03
<b>Frequency</b>	133
<b>Memory/Storage</b>	32 MB
<b>Processor</b>	Pentium 133 MHz
<b>Memory</b>	32 MB D-RAM
<b>System Software Versions</b>	3.7, 4.4, 5.2
<b>Operating Systems</b>	Windows 3.11, Windows 95
<b>Supported Languages</b>	German, English, French, Italian, Spanish
<b>Compatibility</b>	SINUMERIK 840D BS002

### Description

The Siemens 6FC5210-0DA20-2AA0 is an industrial computer module designed for integration with SINUMERIK control systems, specifically supporting FM-NC, 810D/810DE, and 840D/840DE configurations. This module features a Pentium 133 MHz processor and 32 MB D-RAM, providing a reliable platform for operator interface (HMI), CNC program visualization, diagnostics, file management, and communication with the NCU. The system software includes versions 3.7, 4.4, and 5.2, compatible with Windows 3.11 and Windows 95, ensuring full interoperability with SINUMERIK HMI interfaces and technological applications. The language package includes German, English, French, Italian, and Spanish, making it ideal for globally exported machines. This unit is part of the SINUMERIK 840D BS002 configuration, one of the most widespread setups in machine tools from the 2000–2010 generation.
