### Description

The Siemens 6FC5247-0AF22-1AA0 is a SINUMERIK operator panel front video link transmitter designed for distributed assembly setups. This component facilitates seamless communication between operator panels and control systems, ensuring efficient operation in CNC applications. Key features include a compact design with dimensions of 265 x 277 x 35 mm and a weight of approximately 1.2 kg, making it suitable for integration into various industrial environments. The device operates within a temperature range of -25 to +55°C and supports relative humidity levels from 5% to 80% at 25°C, ensuring reliable performance under diverse conditions. It is important to note that this product has been discontinued by the manufacturer as of January 4, 2015. For detailed specifications and compatibility information, refer to the official Siemens documentation.
