## Description

The Siemens 6FC5303-1AF03-8AC0 is a SINUMERIK Push Button Panel MPP 483 HTC/L-L05, designed for industrial automation applications. This panel features a connection for Industrial Ethernet and includes a connection for HT8, making it suitable for integration into advanced automation systems.

The device is tailored for retrofit applications, offering a blanking cover for EKS, based on the 6FC5303-1AF00-8AA1 model. This configuration ensures compatibility with existing systems while enhancing functionality.

The panel's robust design and precise engineering make it an ideal choice for operators seeking reliable and efficient control interfaces in demanding industrial environments.
