Description

The Siemens 6FC5403-0AA20-0AA1 is a robust handheld terminal designed for seamless integration with Siemens SINUMERIK CNC systems, facilitating precise machine control and programming in industrial settings. This device features an ergonomic design, ensuring comfortable operation during extended use. Equipped with an Emergency Stop command device, it enhances safety by allowing operators to halt machine processes instantly in case of emergencies. The terminal includes a connection box/module PN Basic, facilitating smooth connectivity with Siemens CNC controllers. Designed for durability, the unit withstands rigorous industrial conditions while maintaining a lightweight and easy-to-use interface. With an intuitive button layout and clear display, operators can quickly access essential functions, modify machine parameters, and execute commands with precision. This handheld terminal is ideal for applications requiring direct human-machine interaction, such as machine tool operation, automated assembly systems, and other manufacturing processes where precise manual control is essential.
