

6FC5447-0AA01-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6fc5447-0aa01-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	4.54 kgs
Current	18 A
Cable Specification	2 × 9
Product Type	Module
Relay Specifications	18 A

Description

The Siemens 6FC5447-0AA01-0AA0 is a specialized enclosure designed for the SINUMERIK 810D/810DE series, providing robust housing for electronic control components within demanding industrial environments. This enclosure features both external and internal heat dissipation capabilities, ensuring optimal thermal management for sensitive electronic parts. It integrates two dedicated power units, each capable of delivering 9 A or 18 A, facilitating reliable feed drive operation. Manufactured by Siemens, this enclosure offers enhanced protection for Control Computing Unit (CCU) boxes, contributing to the longevity and reliability of your automation system. The thoughtful design supports streamlined installation processes and efficient thermal management, both essential for maintaining optimal function in high-load production lines. This product is ideal for project managers and production leaders who prioritize quick turnaround and dependable equipment within their production lines.
