Category	Industrial Automation Components

Description

The Siemens 6FM1469-4CA11 is a refurbished operator panel designed for industrial automation applications. This panel is fully tested and cleaned, ensuring reliable performance in demanding environments.

It features a robust construction with dimensions of 88 cm in height, length, and width, and weighs approximately 19 kg, making it suitable for various industrial settings. The panel is equipped with a user-friendly interface, facilitating efficient operation and monitoring of automation processes.

Its compatibility with Siemens automation systems ensures seamless integration and functionality. This operator panel is an ideal solution for enhancing control and monitoring capabilities in industrial automation systems.
