

6FX1125-7BA01

Industrial automation components

Manufacturer	Siemens
Catalog number	6fx1125-7ba01
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.15 kgs
Product Type	Digital Input Module
Series	SINUMERIK 800/ACR20
Number of Input Channels	64 channels
Dimensions	200 mm x 270 mm x 20 mm
Weight	0.34 kg

Description

The Siemens 6FX1125-7BA01 is a digital input module designed for the SINUMERIK 800/ACR20 control system. This module features 64 digital input channels, facilitating precise and reliable signal processing in industrial automation applications. It is engineered to integrate seamlessly with Siemens' SINUMERIK series, ensuring optimal performance and compatibility. The module's robust construction and high-quality components make it suitable for demanding environments, offering durability and longevity. Its compact design allows for efficient use of space within control panels, contributing to streamlined system configurations. The 6FX1125-7BA01 is an essential component for enhancing the functionality and reliability of CNC systems, supporting complex machining processes with ease.
