Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6FX1890-1BX01-1E
Software Version	1.4
Architecture	32-bit
Display Language	German

Description

The Siemens 6FX1890-1BX01-1E is a component of the SINUMERIK 880M-GA2 system, featuring 32-bit COM software version 1.4 with German display text. This module is integral to the operation of SINUMERIK 880M-GA2 CNC systems, providing essential software functionalities for machine control.

Its 32-bit architecture ensures efficient processing and compatibility with various industrial automation applications. The German display text caters to German-speaking operators, enhancing usability and reducing the likelihood of operational errors.

This component is suitable for applications requiring precise and reliable CNC control, such as machining centers, lathes, and milling machines. Its robust design and compatibility with the SINUMERIK 880M-GA2 system make it a valuable asset for maintaining and upgrading CNC machinery.
