Description

The Siemens 6GF3 020-0HE15-2CV0 is a high-quality industrial automation component designed for precise data matrix code verification in demanding environments. Manufactured by Siemens, a leader in industrial automation, this device ensures accurate and reliable verification of 2D barcodes and data matrix codes, making it ideal for applications requiring stringent quality control and traceability.

Key features include a compact design with dimensions of 59.9 x 72.1 x 111.8 mm, a resolution of 640 x 480 pixels, and an operating distance of 76.2 mm. The device operates with a power supply of 24 V DC and consumes 5 W of power.

It is equipped with a co-axial bright-field lighting system to enhance code readability. The 6GF3 020-0HE15-2CV0 is suitable for integration into automated production lines, packaging systems, and logistics operations where efficient and accurate code verification is essential.

Its robust construction ensures durability and consistent performance in industrial settings.
