## Description

The Siemens 6GF6230-6MA is a high-resolution 15-inch LCD monitor from the SCD 1597 series, designed for industrial applications requiring robust and reliable display solutions. This model features a flush-mounted design with a high-grade steel front, ensuring durability and a sleek appearance.

It offers a resolution of 1024x768 pixels, providing clear and sharp visuals for various industrial processes. The monitor operates within a frequency range of 30-97 kHz, accommodating a wide range of input signals.

Additionally, it includes on-screen display (OSD) controls for easy adjustment of settings. The 6GF6230-6MA is part of Siemens' SCD 1597 series, known for its rugged construction and suitability for harsh industrial environments.
