Description

The Siemens 6GK1610-0TA00 is a SIMATIC HMI device from the MOBIC T8 series, designed for industrial automation applications. This model features a German language interface and operates on the Windows CE platform.

It is engineered to provide reliable performance in demanding manufacturing and process control environments, serving as a direct drop-in replacement for existing installations. The device is equipped with a touch screen for intuitive operation and is suitable for integration into various industrial systems.
