Manufacturer	Siemens
Catalog number	6gk6490-8cb00-1cn0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Industrial Ethernet Switch
Product Family	RUGGEDCOM RSG908C
Port Count	8 ports
SFP Slots	4 slots
LC Ports	4 ports
Operating Temperature Range	-40°C to +85°C
IEEE 1588 Support	Yes

Description

The Siemens 6GK6490-8CB00-1CN0 is an industrial-grade Ethernet switch designed for demanding environments. Manufactured by Siemens, this model is part of the RUGGEDCOM RSG908C series, known for its robust performance and reliability.

It features eight ports, including four 1 Gbit/s SFP slots and four 100 Mbit/s multimode LC ports, facilitating flexible network connectivity. The device operates within a wide temperature range of -40°C to +85°C, ensuring functionality in extreme conditions.

Integrated IEEE 1588 support enables precise time synchronization, essential for time-sensitive industrial applications. The fanless design contributes to its durability and suitability for harsh industrial settings.

This switch is ideal for applications requiring reliable and high-performance network infrastructure in challenging environments.
