

6RB2000-0NE00

Industrial automation components

Manufacturer	Siemens
Catalog number	6rb2000-0ne00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.18 kgs
Product Type	Drive
Voltage	DC
Dimensions	27 cm x 8 cm x 40 cm
Weight	0.32 kg
Phase-Out Date	26.01.2006
Repairable	Yes
Discontinued	Yes

Description

The Siemens 6RB2000-0NE00 is a SIMODRIVE 6RB20 DC Feed Drive Closed-Loop Control PCB Basic Version, designed for precise control and high performance in industrial applications. Manufactured by Siemens, this drive controller is part of the SIMODRIVE series, known for its reliability and efficiency. The 6RB2000-0NE00 is engineered to provide seamless integration with DC motors, offering closed-loop control for enhanced operational stability. Its compact dimensions of 27 cm x 8 cm x 40 cm and weight of 0.32 kg make it suitable for various industrial setups where space and weight considerations are critical. This product is repairable, offering a cost-effective solution for extending the lifecycle of your automation systems. Please note that the 6RB2000-0NE00 has reached the PM490 phase, indicating the start of its final year of support before its phase-out date on 26.01.2006. Therefore, it is advisable to plan for future upgrades or replacements to ensure continued operational efficiency.
