Manufacturer	Siemens
Catalog number	6rb2060-2dg00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6RB2060-2DG00
Product Type	Variable Frequency Drive Motor Control
Product Series	SIMODRIVE 6RB20
Rated Current	60 A
Maximum Current	180 A
Number of Axes	1 or 2

Description

The Siemens 6RB2060-2DG00 is a variable frequency drive (VFD) motor control unit designed for precise speed and torque control in industrial applications. Manufactured by Siemens, a global leader in automation technology, this model is part of the SIMODRIVE 6RB20 series, known for its reliability and performance.

The 6RB2060-2DG00 is engineered to handle a rated current of 60 A and a maximum current of 180 A, accommodating 1 or 2 axes, making it suitable for various automation tasks requiring precise motor control.

Its robust design ensures efficient operation in demanding environments, contributing to enhanced productivity and operational efficiency.
